The cost effective, board mount KPSB series offers high efficiency levels in very compact 39.5 x 19.4mm (6W) and 50.8 x 28mm (25W) footprints. Featuring an open frame or encapsulated construction, these light weight converters are Class II double insulated, allowing operation without an earth ground connection. Optional JST plug in connectors are available.

**Features**
- High Efficiency, Up to 87%
- Class B EMI
- Low No Load Power Consumption
- Wide Operating Temperature
- Class II, Wide Range Input (90-264VAC)

**Benefits**
- Lower Operating Costs, Improved Thermal Performance
- No External Filter Components Required
- Energy Saving
- Operation In Harsh Environments
- Global Application, No Earth Required
