# IEEE-488 GUI Program Download

This is a Graphical User Interface (GUI) program.

- Used with Genesys™ power supplies with the IEEE-488 (GPIB) option "-IEMD" or "-IEEE"
- Demonstrates the remote programming, measuring and status ability of the power supply
- All measurements and status are continuously updated at high speed
- Includes some digital programming features not found on the front panel of the power supply
- You may switch control to any IEEE connected power supply or RS-485 slave on a multi-drop bus by changing the program's address controls on the fly

Downloads:

GEN_IEEE_GUI_revD01_Installer.zip	The GUI installer in a ZIP file. Rev: D01. Installs LabVIEW 2013 Runtime engine, if needed. Size: 150 MB
Readme IEEE GUI.rtf	Installation, licensing and operating instructions.
IEEE User Manual	Instructions for the Genesys™ IEEE bus cabling, addressing and settings.
VISA Hardware Drivers for the IEEE-488 Controller device	These drivers should be provided with the IEEE controller device being used.
GUI Source Code	LabVIEW 2013 source code for the GUI is available upon request. This version may be modified and shared under the terms of the GNU General Public License.
